Production offices and dressing rooms just 65 feet away

AIRBUS A300

The cockpit

AS REAL AS IT GETS !

Day or night, this Airbus A320 cockpit delivers unmatched authenticity. More than believable, it **brings your scenes to life**.

An onboard system lets you **simulate real flight** scenarios : boarding, taxiing, takeoff, or runway holding.

Optional : fully customizable screen content tailored to your script.

Business class cabin

ELEVATE YOUR STORY !

Like the rest of the aircraft, the business cabin immerses you in a true inflight experience.

18 fully operational seats

Reading lights, powered seat controls, integrated tray tables

Mounting points for touchscreen displays

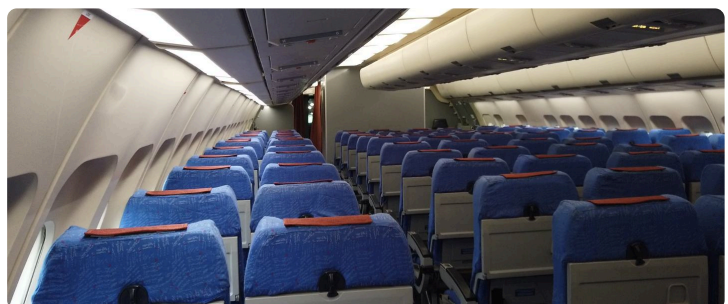

Economy cabin

FLEXIBLE. SCALABLE. PRODUCTION-READY.

Reconfigure the cabin to match your vision, up to **142 seats**.
Adjust movable partitions to accommodate your cast and extras.

Reading lights, overhead bins, call buttons, every detail is in place. Just roll cameras.

Lighting

TOTAL CONTROL, FRAME BY FRAME

The entire cabin is equipped with advanced LED lighting, allowing you to dial in the exact color temperature you need.

Eliminate hotspots (including EXIT signage) with precise intensity control

Activate, dim, or switch off no-smoking signs

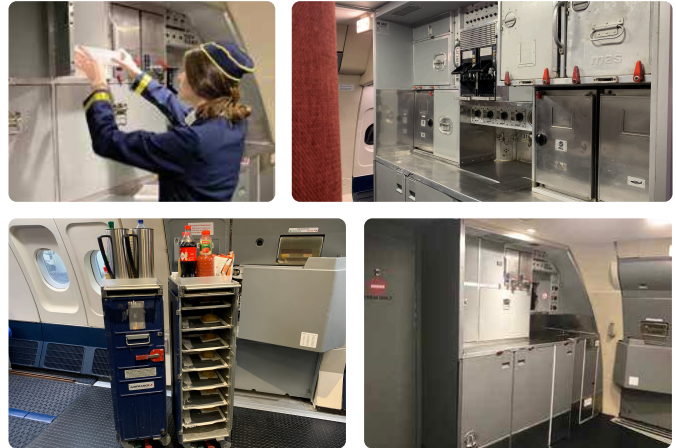

DMX connectivity for seamless integration with your wireless lighting controls

Crew galleys

READY FOR SERVICE

From coffee service to full meal prep, both galleys are fully equipped for realistic inflight scenes, business or economy.

Accessories

BECAUSE DETAILS MATTER !

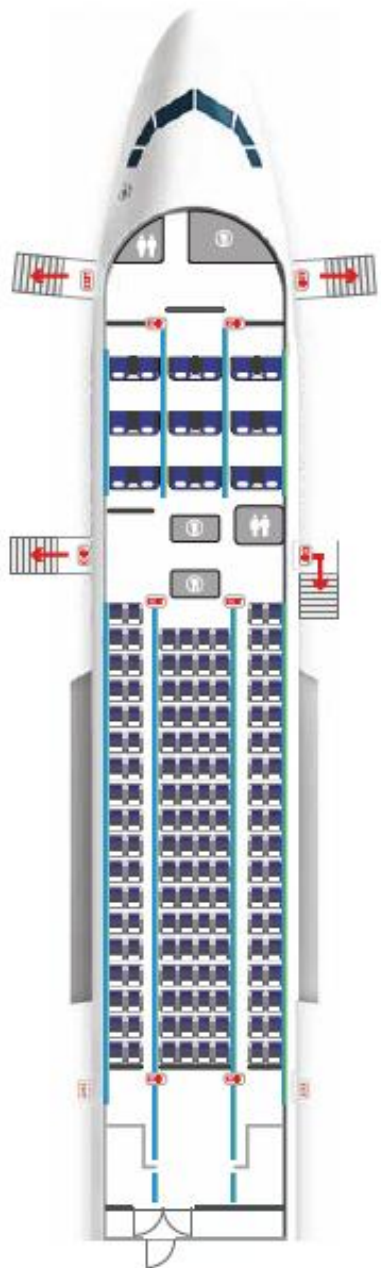

- 10 service trolleys
- 10 meal trays
- Filming-ready lavatories
- Red service trays
- 125A power distribution at the rear of the aircraft
- Cushions and headrests in multiple color options
